To: Committee of Counsel

Gentlemen:

I am enclosing herewith for your information, transparencies of the Warning Statement (in duplicate) set up in various type sizes, one set utilizing the present "x height" leading but with the "Boyle" spacing on the border line (i.e. measuring from the type slugs out), and the other utilizing the "Boyle" spacing on the border line and "Boyle" "x height" leading (i.e. separating the two lines by the height of a small case "x", measuring from the tops and bottoms of type slugs). A transparency was not made of the 16 point size because that is not a standard type but a picture of that size, using both methods, is included.
